The Bill Gaede Test for Homosexuals

[*Only for individuals who are biologically born male (i.e., XY).*]

Would you like to know whether you are homosexual?

If you're honest with yourself, take the test and find out…

The only acceptable answer to each question is either a *yes* or a *no*. No other possibility is allowed. [1]

A *no* answer = 25 points.

If you scored less than a perfect 100 points, you are a homosexual.

Do you desire or crave, do you dream of, would you enjoy or find it pleasurable to do or try to experiment with any of the following:

1. …inserting your penis and cumming in another male's mouth?

yes _____ no _____

2. …putting another male's penis inside your mouth, begin licking it, and swallowing the semen?

yes _____ no _____

3. …having another male penetrate your anus with his penis and squirting semen in your hole?

yes _____ no _____

4. …sticking your penis and cumming in another male's anus?

yes _____ no _____

If you turned away your head in horror and disgust after imagining any of the foregoing situations, you are a normal man. And of course, a homosexual would have no idea why you reacted in such a nauseating way.

If instead, you answered *yes* to any of the questions, you may want to check your testosterone level before making your first appointment at the pink shrink's office.

---

[1] **Some men may attempt to get out of the predicament the questions put them in by saying deflecting things such as *"It's not my cup of tea."* or *"It's just not for me."***

WRONG ANSWER! Who do you think you're kidding?

These individuals are either closeted homosexuals or hypocrites. They are hypocrites when they defend homorights, yet don't want to offend their homosexual friends by disclosing their true opinions about homosex. A normal man says it bluntly with all the letters:

"*It's the most disgusting thing imaginable (or unimaginable)… like eating a spoonful of maggots!*"

Get on all fours, hypocrite! Prove that you are not bothered by homosex!
